-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-22, 25-27, 30-34 and 37 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hill.

Applicant is referred to paragraph No. 3, Paper No. 072204.

4. Claims 28, 29, 35, 36 and 38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hill in view of Andersen et al and Gudas et al.

Applicant is referred to the reasoning set forth in paragraph No. 4, Paper No. 072204

5. Applicant's arguments filed November 2, 2004 have been fully considered but they are not persuasive. Applicant's reference to the In re Arkley decision is inapposite to the issues in this case. In Arkley, there was no specific suggestion to apply the chemical reaction to the precursor of the claimed compound. Arkley can be distinguished from the rejection over Hill because Hill does suggest using each of applicant's claimed components. The only selecting that must be done in Hill to arrive

Art Unit: 1761

at this conclusion is a selection of sodium bicarbonate from a limited number of "other substances" (column 16, lines 6-13) and the selection of xylitol and/or sorbitol from a limited number of sweetening agents (column 17, lines 33-38). No other selection of specific components from Hill's disclosure is necessary since each of applicant's remaining components is claimed broadly, e.g. flavor, sweetening agent, medicament. Thus, all of the various permutations, which applicant believes must be considered from Hill in arriving at applicant's invention, have not been considered.

The secondary references are most relevant and properly combinable with Hill. Andersen et al suggests alternative medicaments for use in chewing gum, such as caffeine if drowsiness prevention is desired. Gudas et al makes known the well recognized concept of encapsulating chewing gum components to control their release during chewing.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
